

CHAPTER 30 – ROADS, STREETS & PUBLIC WAYS

Section 30.01 All Donated Roads to Be Brought to Grade; Width; Costs; Culverts

- 1) All roads, donated by Deed or Plat, before acceptance, must be brought to grade established by a properly authorized engineer or surveyor, and the total width that 66 feet must be developed.
- 2) All costs, including culverts within the developed area will be borne by the Subdivider or Developer.
- 3) The Town Board, after accepting such Plat or Deeds for road purposes shall within 90 days, weather permitting, hire sufficient help to grade and apply gravel.
- 4) All culverts used in connection of these town roads and State, Federal and County highways will not be the responsibility of the Subdivider or Developer.
